**Secure Mobile Messaging  
for Enterprise Healthcare**

# Smartphone Communications for Connected Hospital Teams

Medxnote's unique blend of patient-centric messaging and ease of use helps you connect instantly with colleagues and provides faster and safer care for patients.

## REPLACE HOSPITAL PAGERS

Say goodbye to cumbersome and outdated pager technology. Medxnote lets you use the smartphone you already love for clinical app-based communication.

## SMARTER, FASTER MESSAGING

Track every message with audit trails, reply quickly and easily with smart ISBAR / SBAR compliant message templates, and maximise the speed and efficiency of your communications.

## INSTANT TEAM CONNECTIONS

Use the global hospital Directory to find anyone, create Teams for group messaging, find Favorite colleagues, and easily capture and send images.

## PRIVACY & DATA SECURITY

Separate your personal and professional communications while keeping your personal phone number private. Messages stay private and secure, protecting you and your patients' privacy.

# Secure, HIPPA-Compliant Enterprise Technology

Medxnote is designed and built to medical-grade security standards, with comprehensive data compliance features to protect Patient Health Information (PHI).

## **BUILT-IN DATA COMPLIANCE**

The Medxnote platform uses database encryption and TLS to ensure privacy between the client and the server. All data is secure in transit and at rest.

## **FULL AUDIT TRAIL SECURITY**

All Medxnote data is stored in compliance with local data retention policies with complete communication auditing for built-in compliance.

## **COMPETE USER MANAGEMENT**

Medxnote provides easy onboarding of users and supports Single Sign On (SSO), including AD and LDAP integration. Users are easily added and removed via admin.

## **ENTERPRISE SERVICE & SUPPORT**

Medxnote can be set up for immediate deployment with none of the headaches of traditional clinical systems, and is backed by mission-critical support.

# Award-Winning Enterprise Healthcare Communication

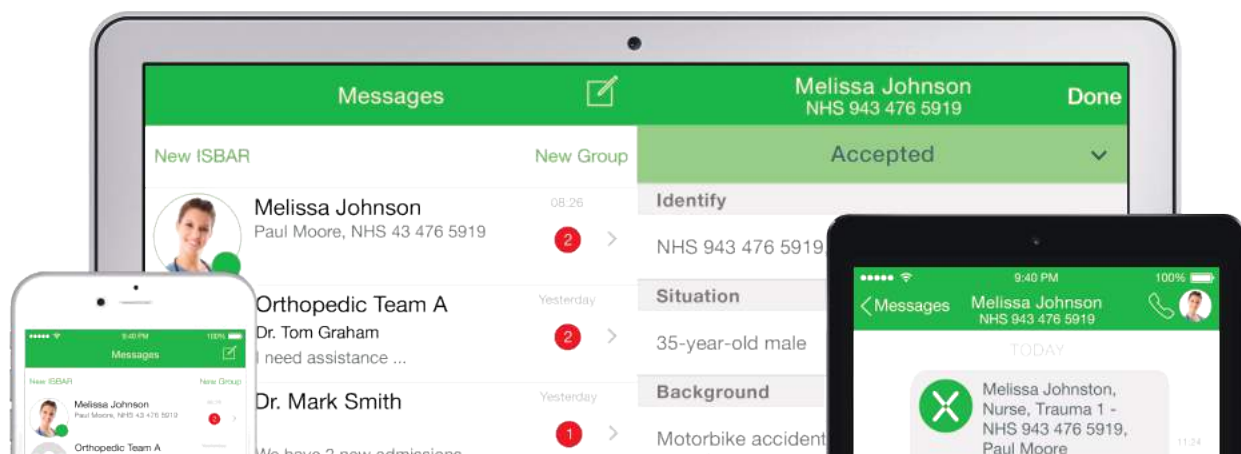

Medxnote has been recognised by both the healthcare industry and the software industry with the following awards and accolades:

**1776 GLOBAL CHALLENGE CUP:  
PEOPLE'S CHOICE AWARD**

**WEB SUMMIT:  
SPARK OF GENIUS FINALIST**

**ENTERPRISE IRELAND:  
HPSU FUNDING & SUPPORT**

**JOURNAL OF MOBILE HEALTH:  
GLOBAL DIGITAL HEALTH 100 AWARD**
